

Host 2023

You're invited to become a CHI host. Any time during the year, CHI hosts gather a small group of friends and family for a CHI event. The event can take place from home, online, or anywhere that works really. Our hosts receive a hosting kit containing everything needed to gather 10 guests together to enjoy snacks and a virtual concert while learning more about Creative Hope and the work we do.

As CHI hosts share about Creative Hope to family and friends in a small gathering, they capture the relational essence of our work. Connection, storytelling, and relationship are all aspects of how we bring change in Cambodia, the Himalayas, and in California as well.

Our vision is that these small events stir up hope within micro-communities and inspire individuals to join the Creative Hope story
