

Online Creative Class 2023

Creative Class

Once a week (virtual)

Each week, CHI creates a Creative Class Video for the girls and women from our partner organisation -a restorative shelter - in Phnom Penh. They participate in these art activities by following along with the video. It gives them a creative outlet and something to progress at. Additionally, these projects become a resource for the counsellors at the shelter, adding to their repertoire of creative activities to incorporate into their restorative counselling sessions. Volunteers can lead the participants through a pre-recorded creative activity virtually. Previous classes have included paper weaving, journal making, a drumming lesson, a dance routine, a singing lesson, a ukulele lesson... all creative activities are welcome!

Join Us

Fill out the application form on our website to join our Creative Arts Team. You can decide whether you want to join us in one class, or if you want to join us regularly. We look forward to hearing from you!
